Moo Moo

Setting Up and Buying MooMoo ($Moo) Tokens

In order to get started **you need to:**

1. Download and set up a **Phantom Wallet.**
2. Fund your Phantom wallet **with Solana (SOL).**
3. Connect your Phantom wallet to the **Raydium exchange.**
4. Add the MooMoo Coin **Smart Contract Address** to Phantom Wallet.
5. Exchange your **SOL for $Moo.**

These steps are explained in detail below

phantom

How do I install Phantom Wallet?

For Desktop Users:

1. Visit Phantom's official website **https://phantom.app/**
2. Click on **"Add to Chrome" (or your preferred browser)** to install the Phantom Wallet extension.
3. After installing the extension, **click on the Phantom icon** in your browser to open the wallet.
4. **Create a new wallet**, save your seed phrase, and set a password.

For Mobile Users:

1. **Download the Phantom Wallet app** from the App Store (iOS) or Google Play Store (Android).
2. Open the app and **create a new wallet**, save your seed phrase, and set a password.

How do I fund my Phantom Wallet?

1. **Purchase Solana (SOLt)** from an exchange like Binance, Coinbase, or Kraken. Users in the GCC may prefer CoinMENA, Rain, M2, etc.
2. **Transfer SOL to your Phantom Wallet** by copying your wallet address from the Phantom wallet and pasting it into the withdrawal section of your exchange account.

How do I connect Phantom Wallet to Raydium?

For Desktop Users:

1. Visit Raydium's official website https://raydium.io/
2. Click on "Connect Wallet" and select "Phantom".
3. Approve the connection in your Phantom Wallet extension.

For Mobile Users:

1. Open the Phantom Wallet app.
2. Visit Raydium's official website on your mobile browser https://raydium.io/
3. Tap on "Connect Wallet" and select "Phantom".
4. Approve the connection in your Phantom Wallet app.

How do I add the MooMoo token smart contract address?

1. Obtain the MooMoo token smart contract address **from the official Cows Gone Mad website or community channels.**
2. Open your **Phantom Wallet** extension or app.
3. **Click on the "+"** icon to add a new token.
4. Paste the MooMoo token smart contract address and **confirm the addition.**

How do I swap tokens on Raydium?

1. **Choose the tokens** you want to swap from the dropdown menus (SOL and MOO).
2. **Enter the amount** you wish to swap.
3. **Check** the slippage tolerance, minimum received, and price impact.
4. Click on "Swap" and **approve the transaction** in your Phantom Wallet extension or app.

Frequently Asked Questions (FAQs)

Why can't I see my MooMoo token in the wallet?

1. **Token Not Added** — Ensure the MooMoo token smart contract address is **correctly added to the wallet.**
2. **Network Issues** — **Wait a few minutes** and refresh the wallet.
3. **Incorrect Address** — **Double-check the wallet address** used for the transaction.
4. **Phantom Wallet Update** — Ensure you are using **the latest version** of the Phantom Wallet extension or app.

Can i use the same Phantom wallet on desktop and mobile?

Yes!

1 Ensure Both Devices Have Phantom Wallet Installed

For Desktop Users:

Install the Phantom Wallet extension on your browser from Phantom's official website.

For Mobile Users:

Download the Phantom Wallet app from the App Store (iOS) or Google Play (Android).

2 Import Your Wallet Using the Seed Phrase

1. Open **Phantom Wallet.**
2. **On your desktop,** open the Phantom Wallet extension.
3. **On your mobile** device, open the Phantom Wallet app.
4. Select **"I already have a wallet".**
5. Choose the option to **import an existing wallet.**
6. Enter Your **Seed Phrase.**
7. **Enter the seed phrase** you saved when you first created your wallet.
8. This will sync your wallet across both devices, **allowing you to access the same funds** and transaction history.

3 Sync Transactions in Real-Time

Automatic Syncing:

Once your wallet is imported on both devices, any transactions you make will **automatically sync across both devices.** You can start a transaction on one device and see it reflected on the other.

Real-Time Updates:

Both the desktop extension and mobile app **will update in real-time**, showing your latest balance and transaction history.

Tips for Seamless Switching

By following these steps, **you can easily switch between your desktop and mobile** devices in real-time, ensuring you have access to your Phantom Wallet wherever you go. **If you have any more questions or need further assistance, feel free to ask!**

Can I Use Wallets Other Than Phantom to Buy MooMoo Coin on Raydium?

Yes, while Phantom is highly recommended for its ease of use and seamless integration with Solana-based platforms like Raydium, **you can use other Solana-compatible wallets as well.** Here are a few popular alternatives:

Solflare

Web and Mobile:

Solflare is available as a **browser extension** and a mobile app.

How to Connect

Visit Raydium, click **"Connect Wallet"** and select Solflare. You'll be prompted to connect your Solflare wallet.

Sollet

Web-Based:

Sollet is a **non-custodial web** wallet for advanced users.

How to Connect

Click **"Connect Wallet" on Raydium,** choose Sollet, and follow the prompts to connect your wallet.

Ledger (with Phantom or Solflare)

Hardware Wallet:

If you prefer added security, you can connect a **Ledger hardware wallet via Phantom or Solflare**

How to Connect

Ensure your Ledger is set up with the Solana app installed. **Then connect your Ledger via Phantom or Solflare** to use it on Raydium.

Other Solana Wallets

Web and Mobile:

Solflare is available **as a browser extension** and a mobile app.

How to Connect

Visit Raydium, click **"Connect Wallet"** and select Solflare. You'll be prompted to connect your Solflare wallet.

Important Note

Regardless of which wallet you choose, **make sure it supports the Solana blockchain and is compatible with Raydium.** Also, ensure you have SOL in your wallet to cover transaction fees.

Tips and Security Measures

1. **Double-Check URLs**
   Always ensure you are on the correct website by **checking the URL to avoid phishing scams.**
2. **Secure Your Recovery Phrase:**
   Never share your recovery phrase with anyone. Store it in a safe, offline location.
3. **Use 2-Factor Authentication (2FA)**
   Enable 2FA on any exchanges or services linked to your wallet for added security.
4. **Stay Updated:**
   Keep both the desktop extension and mobile app updated to the latest version for the best performance and security.

Important Warning About Cryptocurrency

Cryptocurrency investments carry significant risks. The value of cryptocurrencies can be highly volatile, and you may lose a substantial amount, or all, of your investment. Always do your own research, **understand the risks involved, and never invest more than you can afford to lose.** Be cautious of scams and ensure you are using reputable platforms and wallets
